

Welcome to **MASTER VET**

eTwinning project

October 2024 - March 2025

2 TOTa and 3PTGc

About the Project

We are proud to introduce Modernizing Approaches in Skill Training and Employment Readiness in Vocational and Educational Training (Master VET) a unique international project that brings together students and teachers from Turkey, Poland, Latvia, Portugal, Belgium, Italy, France and Spain. Our project aims to enhance digital skills, promote creativity, and develop career readiness among vocational education students.

Activities:

1. Creating AI avatars
2. Designing project logo
3. Writing cvs
4. Simulation of job interviews
5. Creating digital visualisation of future workplaces
6. Designing work-life game
